2022 Jefferies Healthcare Conference

Format: Live Presentation

Date: June 9, 2022

Time: 4:00 p.m. Eastern time

The Arsenal Bio management team will also participate in one-on-one investor meetings during the conference.

### **About Arsenal Biosciences Inc.**

Arsenal Biosciences, Inc. (ArsenalBio), located in South San Francisco, Calif., is a privately held programmable cell therapy company discovering and developing a pipeline of next-generation autologous T cell therapies to defeat cancer. Our full-stack R&D engine generates multifunctional T cell medicines, enabled by precise and specific CRISPR insertion of large synthetic DNA sequences. ArsenalBio is building the industry's largest DNA library of therapeutic enhancing integrated circuits, incorporating logic gating for improved tumor targeting and synthetic features enabling multiple pharmaceutical functions. With our programmable and computationally driven approach and nonviral clinical manufacturing, we aim for enhanced and broader efficacy, increased patient safety, reduced stakeholder costs, and expanded market access.
